FEARED LEGISLATION

Which Would Kill Their
Big Plunges on the
Market

Claimed That Bankers Who Failed
Were Denied Credit for Political Purposes.

New York, Aug. 27.—"Standard Oil and Morgan interests marked the firm of A. O. Brown & Co. for slaughter," said a well known stock exchange operator today, "because they feared the passage of an anti-gambling law which would practically kill all their big plunges on the market." "And you'll see" he continued, "that the Brown firm will be made the goat to convince the public that big men of the street frown on gambling. By the Standard's control, Brown & Co. were driven to the wall, not because they were not sound enough, but because they were denied credit for political purposes." This view is generally today in Wall street. It is pointed out that the great interests which fatten on stock exchange gambling have been badly scared for some time fearful that fresh disclosures would result in the passage of a restrictive law. The daring operations of the Brown firm were considered dangerous to the plan of keeping everything quiet.

KEPT WEDDING
SECRET FOR
THREE MONTHS

DEPUTY CLERK MILES AND MISS
LORA LARSON MARRIED IN
COVINGTON.

Friends Were Surprised When the
Announcement Was Made This
Morning.

Deputy Treasurer Will H. Miles in the county treasurer's office, has been going about his duties for the past several weeks with a broad, self-satisfied smile lighting up his always radiant face. It is the brand of smiles that a man wears when he has "slipped one over" on his friends.

Mr. Miles has had ample reason for these smiles. He has duped his friends in the cleverest possible manner. In fact he has the laugh on all of them.

Last May Mr. Miles and Miss Lora Larson, slipped away and journeyed to Cincinnati. They took a trip across the river to Covington, where they were married. They returned to Newark and both took up their work where they left off and none of their friends were the wiser.

They then took a house at 134 Tenth street and commenced to get it in readiness to go to housekeeping. It was the plan of the young couple to furnish the house and take up their residence there before taking any of their friends into their confidence.

However, the friends became suspicious and watched the movements of the bride and groom and learned that they had been buying furniture. Then they decided to announce their marriage. Even Mr. Holtz, with whom Mr. Miles has worked day after day, did not know of the wedding.

Mr. and Mrs. Miles will be at home to their many friends at 134 North Fourth street, after September 1.

FAMOUS TRACK

AT READVILLE WILL SOON BE
ABANDONED ON ACCOUNT
OF INDEBTEDNESS.

First Track in the County on Which
a Mile in Two Minutes Was
Trotted.

Readville, Aug. 27.—The mile track of the Readville Trotting cir-

cuit, where the first mile in two minutes was trotted, is to be abandoned. The great American \$50,000 trotting derby, though successful, was a distinct disappointment to the officials of the horse breeders' association, who hoped to lift the staggering debt under which the property was buried. Only 12,000 persons paid admission to the race. The future of the property is in doubt.

ACCEPTS
POSITION

ATTORNEY GENERAL OF OHIO
WADE H. ELLIS TO SUCCEED
MILTON D. PURDY.

Will Become Assistant Attorney General of the United States—Favorite of Roosevelt.

Washington, Aug. 27.—Wade H. Ellis, attorney general of Ohio, has accepted the position of assistant attorney general of the United States to succeed Milton D. Purdy, who was appointed to a Minnesota federal judgeship some time ago.

The President offered the position to Mr. Ellis about a month ago. Since that time Mr. Ellis has had many consultations with the President, Mr. Taft, and Mr. Bonaparte. His acceptance was made public Wednesday afternoon in an announcement given out at the Department of Justice.

Mr. Ellis' delay in accepting the position is construed here to be the result of political complications. His final acceptance after his conferences with the President and Mr. Taft is thought to mean that he has been assured of the attorney generalship in the next cabinet should Mr. Taft be elected.

It is generally well known that Mr. Bonaparte was never much of a favorite at the White House. Mr. Ellis, on the other hand, has stood high with Mr. Taft and with the President.

Not only did he practically write the Republican platform that was finally adopted, but at Chicago Mr. Ellis was the recognized representative of Mr. Taft on the resolutions committee. That meant, of course, that he was also the President's spokesman.

The formal announcement says that Mr. Ellis will assume the duties of his office within the next few weeks, as soon as he can straighten out matters in his Ohio office.

AERIAL RACES

TO BE HELD IN COLUMBUS SATURDAY WILL DRAW LARGE CROWDS.

Trial Trip of the Iroquois, Which Will Represent Capital City, a Complete Success.

Columbus, O., Aug. 27.—This city is making great preparations to entertain the visitors who will be here Saturday to witness the aerial races which will start from the Columbus driving park.

The balloon Iroquois, which will represent the city of Columbus in the race was christened Wednesday by Miss Elsie Janis, the Columbus actress, and the ceremonies attracted a great crowd after which the balloon made a trial flight, reaching a height of 12,200 feet and landing at Derby, Pickaway county, 22 miles away. The big gas bag was piloted by Capt. A. E. Mueller, the distinguished foreign pilot, who in the international race Saturday is to sail the Ville de Dieppe, in which he will be accompanied by Captain Paul Mason of the Ohio State Journal.

In the trial flight Wednesday Capt. Mueller was accompanied by E. G. Barkam, P. S. Raper and Chas. Bowerman, newspaper men.

Crowd Raises Contribution to
Assist Campaign—Mr. Bryan
and Theodore Bell Speak.

Salem, Ill., Aug. 27.—No crowd of equal size or enthusiasm ever turned out in this city, the birthplace of Wm. J. Bryan, as did that of yesterday, when the Democratic candidate stopped over to greet old friends and neighbors.

The whole population was up and on hand early to extend a hearty welcome when Mr. Bryan reached here in the morning. They were augmented later in the day by thousands who came in on special trains.

The principal event of the day was a speech by Mr. Bryan from a platform in the court house grounds in which he appealed to the "Roosevelt Republicans" to support the Democratic ticket, because, he said, they could not hope for a realization of the promised reforms of their party. Mr. Taft, he said, was not the heir to Republican reforms.

During the day Mr. Bryan divided his time with the Bryan and Jennings branches of his family. After luncheon he rode out to the cemetery and placed flowers on the graves of his parents, and on his way back to the city inspected the new Bryan-Bennett library presented by himself and the late Philo S. Bennett, of Connecticut. The building cost \$3,500 of which Mr. Bryan contributed \$2,000. He also donated the site, which is on the spot on which the house in which he was born was located.

While Mr. Bryan was talking the crowd made up a purse of \$300 and handed it to him as a contribution. A check for \$100 was also given by a man from Clinton county. Preceding Mr. Bryan's remarks Theodore A. Bell, of California, chairman of the Kern notification committee, who accompanied him here, made a speech, in which he compared the platforms of the two dominant parties.

ENTIRE CITY UNDER WATER

Business Houses, Mills and Factories Inundated at
Augusta Ga.—Much Suffering Results and
Property Loss Will Run Into Millions

Augusta, Ga., Aug. 27.—Practically the entire city is under water. Business houses, mills and factories are closed, telephones and telegraph communication except one wire is destroyed. Daily newspapers suspended after the electric light and power plants were put out of commission, and rowboats are the only means of transportation in the main streets. To add to the distress thousands today are going hungry. Nearly all of the food supplies in the city have been ruined by the flood. The water reached a depth of ten feet in Main street, and has subsided but little. The big bridge across the Savannah river has collapsed. Early estimates of the damage done are far too small. The property loss runs in the millions.

Arrangements were made with Sheriff Browning to take the young man to the Massillon hospital Thursday.

The man is not violent but the hallucination that his brother-in-law wants to kill him in order to get his little child, has sapped his mind away.

WILL FIGHT
UNCLE JOE

Danville, Ill., Aug. 27.—Democrats of the eighteenth congressional district, which Speaker Cannon represents in the house, propose to make a real fight this fall to defeat "Uncle Joe," and the chief issue will be no other than an aversion to the speaker's use of粗 words. Henry C. Bell, of Marshall, will make the race against the speaker.

MINERS

Suffocated In Coal
Mine Near
McAlester

HELP WAS IMPOSSIBLE

Holocaust Was Caused by
the Ignition of a
Barrel of Oil

Smoke Pouring from the Shaft
Was the First Intimation to the
People on Top of Trouble.

McAlester, Okla., Aug. 27.—More than 30 miners were suffocated yesterday in Halley-Ola coal mine No. 1 at Halleyville, 14 miles east of McAlester, when fire destroyed the hoisting shaft and air shaft and cut off air from the men below.

Twenty-five dead bodies were removed from the mine last night, following a three hours' successful battle with the flames. Twenty-five mules were suffocated and some of their bodies were burned.

Explorations in the channels revealed that none of the men met death by burning, but that all of them were suffocated. It is impossible yet for the rescuers to get far from the base of the main shaft, and it probably will be 24 hours before a thorough search of the entire mine can be made. Some of the channels are three quarters of a mile long.

After the entombed miners had gone down in the cage a fire broke out, caused by the ignition of a barrel of oil which a miner was trying to divide. The flames spread at once to the hoisting shaft and the air shaft, and all communication with the top was cut off.

The first indication the people on top of the ground had of the trouble was the flames and smoke coming out of the top of the shaft. Hundreds of miners rushed to the scene and tried to get into the air shaft, but this was impossible, as flames and smoke drove them back. Then an effort was made to operate the cages running up and down the burning shaft, but it was found that the cages, the cables and the guides had been burned.

There was absolutely no help for the imprisoned miners.

FORGER

Signs Check and It is Cashed at the Doc Store—The Police Are Notified.

The police are looking for a man that forged the name of William Davis to a check for \$12.50 on the First National bank of Zanesville, and cashed it at the Ed Doc clothing store. The check was signed by Brady Bros., and was numbered 1222 and was dated August 17. As the check was cashed and the forgery discovered the police were at once notified and the officers are now looking for the forger. It is probable that Mr. Davis, to whom the check was drawn lost it and that the man who signed it found it somewhere.

WILL CHECK GAMBLING.

New York, Aug. 27.—Five of the leading bankers of New York have decided their Wall street stock gambling was checked. Today was the third of a series of secret meetings held by these bankers and it was agreed that unless the stock exchange take drastic measures immediately, the lesson given to Brown & Co. by the bankers, who admit responsibility for the suspension, will be repeated. The bankers refuse to be quoted or to discuss matters.

LABEL ADVERTISING.

Methods Employed by the Shoe Workers' Union.

AIDS THE CAUSE OF LABOR.

People Familiarized With the Emblems of All Unions—General Adoption of the Idea Would Bring Industrial Peace.

Reviewing the results of the label advertising campaign conducted by the Foot and Shoe Workers' union, the official journal of that craft says:

Our latest method of advertising the label, through the medium of a traveling moving picture show, is a decided success. Over 75,000 people have had presented before them in an entertaining way the union stamp and all other labels. Women were in the majority at all the lectures, many of whom received their first impression of the label factor in the construction of organized labor.

The performances were held in large auditoriums and theaters in most instances, the local trade councils paying the expense of the house and advertising. It is our ambition to receive the co-operation of the other unions next season so that a common fund may be created sufficient to place a number of such outfits upon the road.

No union can promote under the auspices of the labor movement the interests of its label alone. It must pursue a broad course of merging its interests with those of the others to the end that labor shall grow in power in a solid, general way. There is no other way to add to the permanent growth of organized labor than to persist in the endeavor to secure an ever increasing number of the people to demand the goods bearing the labels, which prove that they were made by union men and women.

There is no other way to bring about permanent peace between employers and employees than to force a recognition by each of the rights of the other to consider and arrange collectively in their respective associations the matters which pertain to their business, and to arbitrate the differences. The labels are emblems of industrial peace, as their use by an employer proves that he has entered into an agreement with the union for his employees, recognizing the cardinal principle of trades unionism, collective bargaining, which has been and is today the chief bone of contention between organized labor and employers.

When the people understand that in the purchase of the product of union labor lies the power to establish harmony and peace permanently in the industries they will make the demand for union label goods and strikes will end forever. When they know that the union label is a sign to prove that children were not worked upon the goods the schools will gain and the mills will lose the children. When the great public realizes fully that the union labels distinguish the labor of free, honest union men and women from that of incarcerated criminals convict competition with free labor will cease, the workers will be united for higher wages and shorter workdays, and a great part of the problem of capital and labor will be solved.

Nor are the ultimate benefits to be derived by popularizing the union labels to inure alone to the factory employees, for the same preponderance of trades union sentiment which compels the organization of the factory will carry upon the wave into the union the workers of every description, assisted materially by that great organization of tillers of the soil, the Farmers' union, which has adopted a label and whose reciprocal action will further the cause of trades unionism as never before.

A decided indication that the labor movement is beginning to conceive that to concentrate upon the purchase of the union label goods is the only method by which to attain organized power was manifested during the tour of our label show by the active co-operation of the United Mine Workers and Carpenters, which organizations in many instances met the expenses of opera houses and the local advertising to assist in promoting union label demand. No court will deprive the people of the right to select the kind of goods which they buy, and the education which is best calculated to bring organized labor is that which teaches that the union label stands for justice and peace, an education for the children, a higher plane of citizenship and morality and a truer type of Christianity, and that the firms that use the label merit the patronage of every man or woman who desires to do something toward the well being of the masses.

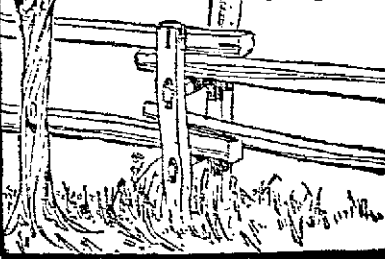

Union label goods are fair and all others are unfair to organized labor. Our organization is proud of its position in being the first to inaugurate a system to place directly before the people the principles of trades unionism and ask for their co-operation. We recognize the absolute necessity of introducing the union stamp to the people persistently. We want it to be known and what it stands for in every home in this country, and we are convinced that our departure is the very best medium to make known to the public the aims and desires of organized labor.

Temporary Park Planting.

It is often difficult to get a park to get on a permanent basis, for the immediate effect, those to be planted later. For this purpose nothing surpasses the effect of the tree which is planted for the first year the tree will grow to the second summer's growth. In the third year they have found a young forest, growing steadily and a wooded park-like effect to the trees. Not later than the fifth year they should in part be removed, and this policy continued with, by the tenth year not one should be left. If the fundamental planting has been skillfully done a single decade of growth should give some good shade and permanent landscape effects.

OBITUARY

COL. ALEXANDER CASH.
Mr. Vernon, Aug. 27.—Col. Alexander Cash, one of the city's most prominent citizens, died Wednesday at his home, 1001 E. 10th street. He was 84 years old. He was a civil engineer by occupation, but held several public offices during his life. He resigned as city engineer only a few years ago. He was a Civil War veteran and was a member of all Masonic bodies in the city. He was a member of the Christian church. The funeral will be held Friday at 3 o'clock under Masonic auspices.

JOSEPH ALEXANDER MOSTELLER.
Joseph Alexander Mosteller, a retired groceryman, died at his home on East Church street Wednesday morning at 7:30 o'clock, after an illness which has lasted for a year or more. During this time his health slowly failed but it was only a few weeks ago that his condition became alarming. His death was due to complications of diseases incident to his advanced years.

Mr. Mosteller was born near Harrisburg, Pa., 76 years ago. For more than 50 years he has been a resident of Newark where he has been engaged in business. For years he was a prominent grocer, being located more recently at Granville and Fifth streets, at what is known as the Five Points grocery. A few years ago he disposed of his interests and since that time has not been actively engaged in business.

Mr. Mosteller is survived by three children, Misses Eva and Carrie Mosteller, who live at home and Mr. Fred Mosteller, who is connected with the Blodgett construction company in Arkansas.

The arrangements for the funeral have not been made as no word has been received from the son.

MRS. GEORGE NEIBARGER.
Mrs. George Neibarger died at the home of her daughter, Mrs. Jessie Wilson, 374 North Fourth street at 3 o'clock Wednesday afternoon. Mrs. Neibarger sustained a fall last Thursday at which time she broke her hip and owing to her advanced age, being 83 years old, it resulted in her death.

She is survived by eight children, three boys and five girls. Her husband died about four years ago.

The funeral services will be held on Saturday at 10 o'clock at the Lutheran church at Vanatta, and interment will be made in the Wilson cemetery.

LECTURE

Of Mrs. Margaret Hunt Was Well Attended—Will Speak Again This Evening.

Mrs. Margaret B. Hunt delivered her socialistic lecture in Taylor Hall, Y. M. C. A., Wednesday evening to a good sized audience. Her subject was "Socialism—From a Dream to a Science," and was well covered by the speaker.

"Socialism," she said, "is based on four facts, or laws, the evolution of

MRS. MARGARET B. HUNT.

society, the fact of economic determinism, the theory of surplus value, and the function of class struggles." Mrs. Hunt said some people thought the socialists invented the class struggle, but that was no more proper than to say the man who discovered electricity or crocodiles invented them.

"Socialists," said the speaker, "only diagnose and work for a permanent cure by proposing to socialize the ownership and benefits of the vast machinery and means of distribution."

Mrs. Hunt will lecture at Taylor Hall again this evening on the subject "Socialism as a Practical Remedy."

VALENTINE-OLDAKER RE-UNION.

A very enjoyable day was spent at the beautiful home of Mr. and Mrs. Season Roby near Buekye Lake, it being the twenty-first annual reunion of the Valentine-Oldaker family, there being present the following guests representing four generations: Mrs. Mary Myer, Mr. and Mrs. J. W. Oldaker, Mr. and Mrs. James Willoughby, Mr. and Mrs. Ebanen Puffer, Mrs. Lewis Artz Mr. and Mrs. Reason Roby, Mr. and Mrs. Charles Willoughby, Mr. and Mrs. Albert Wharton and daughters, Mr. and Mrs. Harry Moffat, Mr. and Mrs. Earl Slocum, Mr. and Mrs. A. T. Seeman and daughters, Mr. and Mrs. Stanley Oldaker, Mrs. C. H. Lane and sons, Mr. and Mrs. Zina Beecher and son, Mr. and Mrs. Charles Harter and family, Mr. E. Pratt and daughters, Mrs. Harriet Myer and daughters, Miss Mary Roby, Miss Lucille Barber, Miss Hazel Roby, Mr. Len Willoughby, Mr. Bert and Roy Roby, Master Fred Oldaker, Mr. and Mrs. Charles Boudas, Mr. George Heitsberry, Miss Jane Davis, and Miss Goldie Harter.

The large table was set on the lawn, loaded with everything good to eat, and to which everyone did justice.

After dinner the guests assembled on the lawn, the older ones to visit, and the children with their games. Afterwards a business meeting was called and new officers were elected, and various remarks made for the good of the society.

It was then decided to hold the next reunion at the beautiful country home of Mr. and Mrs. Ebanen Puffer on the third Saturday in August, 1909, and all of the connections of the Valentine Oldaker families are invited to attend.

AMUSEMENTS

SHEATH GOWN AT AUDITORIUM.

the week. This will be the first time Miss Jacobs will wear the gown, a she just received it direct from Paris and did not intend to wear it until she went west, where she goes after her engagement terminates at the Auditorium, but owing to the request of her many Newark friends she has consented to don it here.

Miss Jacobs will sing "The Glove Worm" in German, also "The Night Inale," and "Are You Sincere?"

There will be an entire change in the moving pictures tonight, some of the films coming direct from the Pathe film company's headquarters.

VOGEL'S MINSTRELS COMING.

Among the early attractions to appear at the Auditorium theater, the management has announced the John W. Vogel minstrels, booked to show here on Wednesday, September 3. This aggregation is a popular one with Newark theater goers, and will undoubtedly mean a rushing box office business.

Fireman Charles Bartholemew has a few days leave of absence during which he will attend to some business. B. & O. engineer William Haver of Cambridge is very ill at his home in Cambridge, Ohio.

Brakeman Harry Welsh has a few days leave of absence and is visiting at his former home, Triway, Ohio. Mr. Edward Flurhutz, foreman of the boiler-makers at the round house is taking a much needed vacation and is now visiting relatives at Cambridge, Md.

Mr. J. C. Wray, a B. & O. brakeman who has been working for some time on the Lorain division is back here with a regular car.

This woman says Lydia E. Pinkham's Vegetable Compound saved her life. Read her letter.

Mrs. T. C. Willadsen, of Manning, Iowa, writes to Mrs. Pinkham:

"I can truly say that Lydia E. Pinkham's Vegetable Compound saved my life, and I cannot express my gratitude to you in words. For years I suffered with the worst forms of female complaints, continually doctoring and spending lots of money for medicine without help. I wrote you for advice, followed it as directed, and took Lydia E. Pinkham's Vegetable Compound and it has restored me to perfect health. Had it not been for you I should have been in my grave to-day. I wish every suffering woman would try it."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

NEW WITMARK MUSIC.

There are three new songs published by M. Witmark & Sons this week, and each one is a gem though all are in different classes. Among them is the great big march ballad and refrain success, "In Grandma's Day," by Jean Leno and Harry O. Sutton. This is the song which Lois Ewell has captured the theater goers with in the "Auto Friends," vaudeville's latest sensational act.

Another number is "A Popcorn Dance," an instrumental piece by Theodore Bendix and one of his series of characteristic pieces of country scenes for the piano. The other one is a "kid song" and is called "Playing School," and it is by Saul M. Aronson and H. S. Crouse and forms a part of Juliette Niner's repertoire. "Playing School," by Saul M. Aronson and H. Sylvester Krouse. "Country Scenes" by Theo. Bendix. "In Grandma's Day," by Jean Leno and Harry O. Sutton.

left for Columbus Thursday morning
to take up the preliminary duties in
preparation for the fair next week.

Bilious Troubles

Bile causes no end of trouble. Sick headaches, bilious attacks,
jaundice, constipation and many distressing ailments arise from an excess
of bile, or from obstruction of the bile duct. Inactivity, sedentary occu-
pations and indigestion in feeding and drinking are bile blunders that
need to be guarded against. When the liver is disordered the best bile
correctives are

BEECHAM'S PILLS

because they relieve the overworked liver, and gently stimulate it when
it is sluggish. These pills control the flow of bile, restore its right con-
sistency, and work for the immediate and lasting benefit of the stomach,
bowels and blood. Whenever a furred tongue, dull, yellowish eyes,
nausea, or headache indicate bilious conditions, use Beecham's Pills at
once, to correct the bile and

RAILROAD MEN'S HARMON CLUB.

At Lima Tuesday evening, a railroad men's Harmon club was organized by 400 employees of the C. & D., of which Mr. Harmon is secretary. This is another evidence of Mr. Harmon's popularity among railroad men. They have not forgotten his humane action in the case of the Pere Marquette employees' excursion train that was wrecked July 20, 1907, in which he, as receiver, ordered that fair settlements of damage claims be made without resort to "fellow servant" or other legal technicalities. Railroad men know that in Judson Harmon they have a true friend. He had no thought of being a candidate for governor at the time of the Pere Marquette wreck.

Judge Brister wants to be elected to a third term as probate judge. The Advocate says no third term should go.—American Tribune.

It sometimes happens that an indiscreet partisan unwittingly gives opportunity for publishing and emphasizing a fact that is greatly to the advantage of a political opponent. Judge Brister was elected probate judge of Licking county in the year 1890—just 18 years ago—and served one term. Then in 1905, after a lapse of 15 years, Judge Brister was again elected probate judge, and he is now a candidate for a second consecutive term. His nomination was not the result of a bargain between a few local bosses, who set up and placed on the Republican ticket a candidate who couldn't be elected to a second term as justice of the peace, but it was by the voice of 4000 intelligent voters, who were actuated by the well known fact that the Judge today is one of the foremost probate judges in the entire state.

FAILED TO DO HIS DUTY.

In two special messages to the legislature during its session this year Governor Harris admitted knowledge of his duty to examine the state auditor's office, as required by Section 193 of the Revised Statutes of Ohio. But he never performed that duty. Instead, at the instigation of Mr. Guilbert, he asked for a special appropriation to perform a specific duty. When that was refused he asked for authority to appoint a special committee to take the investigation out of the hands of the senate committee which was asking questions that McKinnon, Green and Guilbert refused to answer. No matter how much Governor Harris may talk about questions that are not in his own state platform, he cannot dodge the fact that he has failed to perform a sworn duty of the greatest importance to the people of Ohio. No wonder he is so eager to talk about anything else.

Summer is passing away and the boasted Republican prosperity has not yet returned. Autumn will be followed by winter, with everything but the roseate prospect depicted in Republican campaign oratory. perous that existing political conditions should not be disturbed. This is most true so far as it concerns the immense army of officeholders who mustered at Chicago to shout themselves hoarse for Roosevelt and a third term and are now taxing all their energies to elect Roosevelt's marionette. What they want above all things is to let alone while they are sitting at the public crib drawing their salaries with monthly regularity. Substituting themselves as a part for the whole country, by a natural process the hundreds of thousands of other people who are thrown out of employment by Republican policy are beyond their range of vision. As long as they are happy and prosperous the general distress gives them little disturbance.

EXCELLENT EXAMPLE.

Dayton Democrats are up and doing. Eighteen Democratic clubs have been organized in that city. The Gem City is preparing to do its full share to swing Ohio into line for Bryan and Harmon. The Dayton Democrats are setting a splendid pace for other Ohio cities to follow.

IRON TRADE REVIEW

Cleveland, O., Aug. 27.—The Iron Trade Review today says: The present low cost of building cars and lake vessels, compared with last year's figures has been an important factor in encouraging the placing of orders for two large lake vessels, requiring about 10,000 tons of steel, and 1,500 freight cars, calling for about 15,000 tons of steel. These orders are believed to be the forerunners of important business in both vessel and railroad lines. Estimates are now being received on 10 or 12 lake vessels, and many railroads are inquiring for cars and other equipment.

With the exception of some activity in the east, including the Buffalo district, the pig iron market has been very quiet, and in the Pittsburgh district there is a tendency toward weakness. In the south, several leading interests have advanced their quotations to \$13 Birmingham, and are practically out of the market in which \$12.50 can still be done. The demand for malleable has improved somewhat, especially in New York and New England. A northwestern Pennsylvania interest has closed for 5,000 tons of malleable for extended deliveries. Steel making iron is in

light demand in the Pittsburgh district and quotations are somewhat lower. The very low volume of business in pig iron transacted during the late summer has moved the position of the soft, and the market is no longer one-sided as it was a few months ago. Many pig iron producers are not inclined to press their output on the market.

This production of coke in the Connellsville district has increased until the leading coke is now operating 60 per cent of its own capacity. Owing to the strike of coal miners in Alabama there is a heavy movement of Virginia coke to Alabama factories. Dealers in old iron and particularly in Chicago are apparently preparing for an advance in prices but it is doubtful whether their plans can be successfully carried out.

DEMOCRATIC SENATORIAL CONVENTION

The Democratic Senatorial convention of the Fifteenth-Sixteenth district will be held at Newark, Ohio, on Tuesday, September 8, 1908, at 11 o'clock a. m. for the purpose of nominating one candidate for the office of State Senator.

The basis of representation will be one delegate for every one hundred votes cast for Hon. Joan M. Patterson for governor in 1905, and an additional delegate for 50 or more votes so cast.

Upon this basis, the several counties of the district will be entitled to the following number of delegates:

Delaware	3419	34
Licking	6495	65
Muskingum	6253	63
Perry	3668	37

Total 19837 199

Necessary to nominate, 100 votes. By order of the Senatorial Committee of the Fifteenth-Sixteenth District.

MORAL SIDE OF TARIFF

Violates American Ideal of Equality Before the Law.

LENDS ITSELF TO MONOPOLY.

Protection Is a Device For Enhancing Prices by a Tax on Commerce. Tends to Enrich a Few at the Expense of the Public at Large.

In a paper read before the international free trade conference held at London, Aug. 4 to 7, President Jordan of the London University gives his view of the protective system.

Every argument for and against the tariff has been stated a thousand times. There is nothing new to be said. But at the bottom of every argument remains the necessary recognition of its primal quality. The fundamental idea in American policy is that of a square deal to all, each standing on his own feet, with exclusive privileges or governmental aid to no man and to no class of men, in equality before the law, entail, primogeniture, church control of state, state control of church, class consciousness and class legislation were evils which our fathers would not tolerate. They chose the hardships of Plymouth rock and later the hazards of war rather than put up with any of them. If there is one American idea or ideal to be segregated from the rest it is this of equality before the law. And it is this ideal which is violated absolutely and continuously in the theory and in the practice of the protective tariff.

The protective tariff is a device for enhancing the home price of the articles it covers by a tax on commerce, by forcing the body of citizens to pay tribute to producers at home. These producers may be capitalists or directors of industry, or they may be the laborers who contribute effort only without responsibility for the way in which effort may be applied. It matters not whether capitalists or laborers, either or both, actually profit at your expense or mine. The law intends that they should do so. It is a breach of the principle of equality before the law that either should thus profit. As a matter of fact, there is little gain to the laborer, because continued immigration brings him new competitors and because he is in his turn one of the general public who suffer from the commerce tax. As wages are raised, so is the cost of living. For the director or employer of labor the case is on the average not much better, because the cost of his product is enhanced by the tariff taxes on everything which enters into his process of manufacture. In so far as a tariff is successful it is virtually prohibitory. That the evils of prohibitory tariffs are so little felt is due to the fact that our country is a world in itself, with untaxed trade throughout a district comprising nearly half the globe. Yet within this favored area it is possible sometimes to corner a product or to monopolize production. To this end the tariff naturally lends itself, though it would be unfair to declare it to be the parent of all trusts. It is enough to recognize that its general purpose is the same—the development through legal means of industrial and economic monopoly, the enrichment of a class or of a group or classes at the expense of the citizens at large. This is theoretically contrary to American policy. If the principles of our republic in regard to exclusive privileges are right, then the theory and the practice of the protective tariff are wrong. That it works through the method of indirect taxation disguises but does not justify its iniquity.

The tariff is defended on the ground of the value to a growing nation of infant industries, of diversified economies. We may not deny that at times there has been a financial gain to the community through taxing the farmer to build up the manufacturer. It is not politically right or just to do this, but if it were the policy in practice assumes the form of a vested right which becomes in time a vested wrong. Around those vested rights other conditions grow up, and a change of any sort works havoc with related or associated interests. Justice becomes possible only by the perpetuation of varied forms of injustice. To touch the tariff in any way sends a shock through the financial world, throughout the body politic. Tariff revision is therefore a kind of effort which can be based on no principles. It is a blind rush among various choices of evils. The only way out is to make taxation blind, like other efforts at justice, its sole function the raising of revenue.

In another way the theory of the infant industry has proved fallacious. There are in America to-day no infant industries. They have grown faster than the nation has. Our huge industrial combinations overshadow the world. Just as in some degree they dominate it, in some degree they have the whip hand over other nations. If anything American can take care of itself, it is our infant industries. Yet they demand the tariff as a necessity of existence, as insistently as ever they did. The hub in the self assertion just at present is due to the hand-writing on the wall, not to any lessened desire to be fed at the public expense.

The actual injury to American producers traceable to the tariff may not be enormously great. It has doubtless been exaggerated. It lends itself to exaggeration. It makes us angry when we think of it, and wrath means always a magnifying glass. Its greatest evil lies in the perversion of our theories of government, the introduction of the idea of class enrichment through legislation.

Doubtless much of the prosperity of the United States is due to the protective tariff—the prosperity of some of us. But in like degree the nonprosperity of some of us, some of the very same persons, for that matter, is due to the same national meddling with individual rights. The apparent prosperity of any community could be greatly enhanced by taking property away from half the people to put it into the hands of the others who know better how to use it. This is the old discussion of sources and means of prosperity. The fact remains that democratic justice, that fundamental equity between man and man, can never be realized in America so long as any trace of the protective tariff remains on our statute books. It is another illustration of the truth that "they enslave their children's children who make compromise with sin." This law applies to economic lapses, to time-serving legislation, as well as to moral sins. DAVID STARR JORDAN.

ROOT JUICE HAS CURED MANY OF NEWARK

SATURDAY THE LAST DAY OF THE DEMONSTRATION.

A Few Names Out of the Scores of Local Cures.

Proof is not wanting. The Cabelers at the City Drug Store came to Newark about a month ago, by special invitation, to prove the truth of the newspaper reports in relation to the wonderful curative merits of Root Juice, and they have done it well, as hundreds of our people have tried the new remedy and had a speedy cure. A complaint has been heard, out through all hours of the day people go to the City Drug Store and tell of the great good Root Juice has done, or is doing for them. The proof is here in Newark, and those who are ailing should go to the drug store and listen to the reports of the dozens of people that are calling daily. While many do not wish their names published, most of them are glad to tell what the juice has done for them, it has cured many of the worst cases of rheumatism, catarrh, indigestion, kidney and bladder troubles of this community. Many ladies that have suffered years with female weakness and nervous exhaustion have been restored to perfect health after taking a few bottles of the remedy. It's soothing, healing and tonic properties are positively astonishing. Mr. John Schumann, of 77 Pearl street, called and said: "I want to know something about Root Juice. Thomas Parks of North West street, had a bad case of catarrh. He would all choke up at night. His system was very much run down and he was unable to do any work for some time, but Root Juice has almost cured him, and he has been taking it but a short while." John H. Armstrong, of 111 Union street, said: "I had a severe liver and stomach trouble, but Root Juice has stopped all of the pain. I no longer bloat and belch, the smothering spells have stopped and I can eat like a horse and digest everything I eat." Mr. M. Fausette said: "After taking Root Juice a little while, the rheumatic pains in my arms and shoulders, and the pain in my back across my kidneys, entirely ceased, and I don't have a bit of trouble any more with my stomach and kidneys."

Stand Pat Paper Sees Light on the Hides and Leather Schedule.

The New York Tribune, a leading protectionist journal, recently let slip into its news columns a striking example of the injustice and lumbog of the Dingley schedules on hides and leather.

The Dingley act imposes a duty of 15 per cent on foreign hides, but also provides for the free importation of "articles, the growth, produce and manufacture of the United States, when returned after having been exported without having been advanced in value or improved in condition by any process of manufacture or other means."

Certain independent New York dealers in hides and leather have wondered why this provision should not apply to the hides of American cattle, of which nearly half a million are annually exported alive. After they are slaughtered abroad many of the hides are returned to the United States and, being worth about \$10 apiece, are taxed \$1.50 each at the custom house. The dealers reasoned that these hides were the "growth and produce of the United States" and that the extent of the foreigners' offense in "advancing their value or improving their condition" was in removing them from the cattle as an incident to the process of slaughtering the latter for food. So the dealers have applied to the general appraisers to allow the hides to come in free. Whether these dignitaries will rule that the hides have been "manufactured" abroad by removal from the cattle on which they were "grown" and so are not entitled to free entry does not yet appear.

After reciting these facts in substance the Tribune says:

"During the last ten years, or since the tariff act went into effect, the beef trust and the leather combination have had the advantage of this 15 per cent over importers from all foreign ports but it is said that the farmers never benefited from this home trade."

The Tribune is to be congratulated on making the discovery that one of the schedules of the Dingley tariff, hypocritically claimed to be imposed for the benefit of the farmers, though at the expense of all consumers, does not really benefit the farmers at all, but helps to increase the revenues of a trust. Let the Tribune continue and it will discover the make believe character of other schedules. How long will we tax our shoes, harnesses and all other leather goods for the benefit of Armour, Swift et al?

TARIFF SOPHISTRIES.

Press Comments on Republican Candidate's Tariff Views.

The Springfield (Mass.) Republican (Ind.) says: "On the tariff Mr. Taft shows a marked disposition to hedge. Some schedules are now too high, none specified, and should be lowered; some are too low, none mentioned, and should be raised, and when the Taft revision is completed the tariff rates will average apparently about what they do now."

The New York World (Ind. Dem.) says: "In respect to tariff revision Mr. Taft stands on the dubious Chicago platform, but while urging that such revision is necessary and that many schedules ought to be reduced he advances the amazing argument that there are other schedules which should be raised in order to maintain the principle of protection. This is even worse than the Chicago plank. If it is not a plain surrender to the extreme high protection plutocracy within the Republican party, then Mr. Taft's words have no meaning."

The Philadelphia Record (Ind. Dem.) says: "So far as the trusts are concerned, the tariff serves neither for protection nor for revenue, but only as an instrument of plunder. The duties are merely taken out of the pockets of the people to swell the spoils in the coffers of the trusts. Descending from the generalities of speech, beneath which deceit is too apt to lurk, to particulars and details of legislation, the sophistries of Candidate Taft are completely exposed, and he stands as the typical representative of the party of stand patters who could not reform the tariff if they would and would not if they could."

LATEST PICTURES SHOWING WRIGHT AEROPLANE IN FLIGHT.

Le Mans, Aug. 27.—Mr. Wright was again prevented from experimenting with his aeroplane on the manoeuvre ground by reason of the artillery practice, which was continuous.

When the firing ceased, toward sunset, it was thought by many people

that some attempts at flight his operations. The distance, however, would be made, and in anticipation ever, did not in any way disturb the

of that a large crowd of people poured out from Le Mans about 5 o'clock.

It is sixteen kilometres from the town to Mr. Wright's shed—that is to say, double the distance to the race course, previously the scene of over 3,000 pounds of splendid white fish, which filled a boat attached to the launch. When one of the boats arrived at the dock I assisted in unloading and was given the privilege of pulling in an 85 pound sturgeon—the fisherman jokingly remarking: "Guess that is the biggest fish you ever caught, isn't it?"

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood; they work night and day. When healthy they remove about 500 grains of impure matter daily, when un-

healthy some part of this impure matter is left in the blood. This brings in many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

G. W. Harter, living at Hebron, O., says: "For several years I suffered from disordered kidneys but was unable to obtain the slightest relief from the numerous remedies I used. I finally heard of Doan's Kidney Pills, procured a box at Crayton's drug store and received prompt relief. I am glad to endorse such an efficient kidney remedy."

JOHN HANCOCK DESCENDANTS HOLD REUNION

Pleasant Affair at the Home of Mr. and Mrs. Jos. H. Copley—Permanent Society Organized.

A delightful surprise on Mr. and Mrs. Joseph H. Copley, residing near Central City, resulted, Wednesday, in the establishment of a permanent Licking county society of the descendants of John Hancock, of which there are a number residing in this county. The permanent Hancock-Copley reunion will be held next year at Idlewild park, on the last Thursday in August, at which time prominent speakers will be heard.

The affair was in the nature of a complete surprise upon Mr. and Mrs. Joseph Copley, when 65 of their relatives gathered at the home with well-filled lunch baskets. The surprise was planned by the daughters of Mr. and Mrs. Copley and was a complete success. The day was spent in social enjoyment and the rendition of an impromptu program of music and addresses. The principal address of the occasion was delivered by Ephraim Hancock, of Outville. One of the interesting features of the musical program was the rendition of a Welsh song, by Mr. Jenkin Jones, of Granville.

The permanent organization elected the following officers for the ensuing year:

Ephraim Hancock, Outville, president.

Mr. T. E. Cain, Central City, secretary.

Executive committee: Mrs. Flora Hancock Hoover, Newark; Mrs. Lettie Leonard, Outville; Mrs. Pearl Copley Jarrett, Newark; Mr. John R. Ellis, Newark.

The following guests were present: Mr. and Mrs. George W. Hancock, Mr. and Mrs. Ephraim Hancock, Mrs. Leroy Cain, William Cain, Wesley Cain, Mr. and Mrs. John R. Ellis, Mr. and Mrs. John Miller, Mrs. Lottie Leonard, Mr. and Mrs. Clarence Jameson and daughter Josephine; Mr. and Mrs. George W. Hardway, Mrs. H. V. Hardway, Mrs. Charles M. Hoover, Newark; Mrs. L. M. Stockberger, Newark; Mr. and Mrs. Edmond Reese, Mrs. J. H. Ellis, John, Mabel, Rachel and Roderic Ellis; Misses Bertha and Mary Ellis; Mrs. Amanda Morris, Mr. and Mrs. Tom E. Cain and son Harold; Mr. Harry Morris, Mr. and Mrs. Edward Jones, Miss Anne May Bourne, Mr. Thos. Smith, Mr. and Mrs. Jenkin Jones, Granville; Mr. and Mrs. Ollie E. Irwin, Mr. and

Mrs. Edwin B. Jarrett, Newark; Mr. and Mrs. Edgar A. Copley, Misses Elida and Zada Copley, Mr. Joseph S. Copley, Mr. and Mrs. T. A. George Mr. and Mrs. Fred S. Linn and daughter Pearl; Mr. and Mrs. George Adams, Mrs. Clara Sinclair, Newark; Mrs. Rachel Courson and Mrs. J. J. Short, of Wehita, Kans., and Mrs. Percival Hancock, of Boston, Mass.

The Licking county Hancock family comes from the Shenandoah Valley, Virginia, branch of the family of John Hancock of Declaration of Independence fame, and were among the earliest Central Ohio settlers. The permanent organization of this branch of the family unites it with a similar family organization having its home in Boston.

STATE FAIR WILL OPEN AS SCHEDULED

Secretary of Board Informs Mrs. Chas. Keller That It Will be the "Best Ever."

After reading the article in Wednesday's Advocate stating that suit had been filed to enjoin the state fair from being held during the week of August 31, Mrs. Charles Keller, residing north of this city, called up the secretary of the state fair board and was informed by him that the fair will be held despite the suit to enjoin it. He also stated that all the departments would be as big and as interesting as ever and that no court would think of stopping the fair except for a very good cause. The secretary informed Mrs. Keller that she could assure her friends and neighbors that the big exhibition would open on schedule time and that no expense would be spared to entertain fair visitors in the usual hospitable manner.

Thinks It Saved His Life.

Lester M. Nelson, of Naples, Maine, says in a recent letter: "I have used Dr. King's New Discovery many years, for coughs and colds, and I think it saved my life. I have found it a reliable remedy for throat and lung complaints, and would no more be without a bottle than I would be without food." For nearly forty years New Discovery has stood at the head of throat and lung remedies. As a preventive of pneumonia, and healer of weak lungs it has no equal. Sold under guarantee at F. D. Hall's drug store. 50c. and \$1.00. Trial bottle free.

Those victories yesterday were ones that the fans fully appreciated for the Molders had to beat ten men in both games, for Hart was at his worst when it came to umpiring, and the deal he gave the Molders was the rankest an umpire could possibly give a team. But in both games the Molders came bobbing up with colors flying and the league leaders were given a terrific fight. For just at present they can't well afford to drop three straight games.

Webb repeated his double header stunt, and worked throughout both games in the cleanest kind of style, and the Lanks for the most part, were mystified by his assortment of shoes and straight balls that he served up to them. The crowd was surprised last Saturday when he was announced as the heater in the second game, after he had worked in and won the first game, and when the second game went the way of the first, Webb was about the whole cheese.

Then after winning his game yesterday and letting the visitors down with five hits, he decided he was strong enough for the second and when he was announced by the umpire as the selected twirler, he was given anything of the kind ever offered by who preached first on a fielder's choice excited bugs on the home ball lot. But he was the goods, and held the lead, landed on third, Smith then stole the egg to three hits, and should have had a shut out in the second contest, but he ped a light one in front of the mat.

TWO STARS IN YESTERDAY'S DOUBLE HEADER

CLEON "LEFTY" WEBB Who pitched great ball in both games Thursday.

and Pop, asleep on the job, threw to first to get him. Gygli scored, and Smith, always awake to any possible possibility, and confident of his speed, rounded third and started for home, the crowd was astounded. Pop never looked to the right or left, but with head down and ever muscle strained to the limit he rushed for the home plate while the Lancaster team looked on as in a trance. He scored and the play was one of the prettiest ever seen by local fans.

That ended the run getting for both teams in the first game for both pitchers worked at top speed and in the next four innings but four balls went to the outfield.

Second Game.
The Newark players, full of confidence over winning the first game, went into the second game bound to win and take the third straight fall from their old time rivals. How well they did it the score will show.

As in the first game Smith was again the star and three of his five chances in the outfield were wonderful catches. Two of them were taken while running at top speed, and the ball was caught when almost on the ground. The third was made in the fifth inning when Fox hit a liner to middle that he caught after a long run and with one hand.

Wratten scored the first run for Newark in the second inning when he was walked by Locke. He stole and on an error by Humphries he reached third. Winters picked out a single and leaped against it hard enough for Wratten to reach home. In the fourth the called balk on Webb tied the score and then the team settled.

Abbott waited for his old team mate, Locke, the ex-Molder, to send one over that was to his liking, and then he flapped it. The ball went far afield and Abbott reached second. Gygli grounded out to the second baseman and then Smith hit a sacrifice to Heller that Abbott beat in. The play was close and the throw of Heller's was a perfect one, but Fox dropped the ball.

A fast double in the seventh wound up the Lancaster series in Newark for the year and the last inning was an exciting one throughout. Carter hit to Gygli and both runner and baseman slid into the bag with Gygli to the good on the play. Then Lallier was hit in the slats. Reynolds lit a singer to Wratten who handled the ball nicely to Pinkney in time to get Lallier, and Pink hurled the hide to Gygli in time to nip Reynolds. The score:

George T. Stallings, former big league manager, and now manager of the Newark team in the Eastern league, has been signed to manage the New York Americans next season.

As the Molders and the Tigers are battling hard for leadership in the second division, the present series at Mansfield will be a pretty one. The teams are tied now, and with a fair umpire the Molders should take the long end of the games.

There are but nine more games to be played on the home grounds. Marion is here for two games Labor day, and one game the day following, and Lima then comes for a series of three games. Postponement then comes for two days, a double header to be pulled off the closing day of the season.

These exhibition games for the leagues during the playing season are bad things. In a game at Piqua yesterday, which Cincinnati won 10 to 3, Mike Mitchell had the ligaments torn loose in his right ankle and he will be out of the game for a long time.

Davy Crockett of Marion, has been released because he was ill and of no use to the team. Farrell will probably be out of the game the rest of the season, for according to reports he has failed to keep himself in playing condition.

GATE RECEIPTS

Attached at Wehrle Park to Satisfy Claim of Newark Doctor Against Lancaster.

A writ of attachment was issued in Squire Helton's court Tuesday afternoon against the Lancaster ball club, trying up their share of the gate receipts in yesterday's game. The writ was issued on the complaint of Dr. H. H. Baker, who claimed money due him for medical services for one of the Lancaster players who was injured here.

HORSE WANTED TO TAKE AN AUTO RIDE

Steed Started to Climb Aboard Machine Containing Jas. K. Hamill and Jas. Fitzgibbon.

Messrs. James K. Hamill and James R. Fitzgibbon met with a lively adventure Wednesday evening while returning to Newark on the Hanover road in their auto. When just at Hanover they saw a man coming toward them, driving what was apparently a young horse and which he seemed to be unable to guide. The autoists slowed down to give the man every chance to keep clear, but when about to pass, the horse suddenly turned and came directly for the machine and got on the front end with his fore feet, and pretty soon he got down again. That the autoists were a bit surprised to see the stead coming aboard, goes without saying. In the midst the machine lamp was broken and some dents were put in the hood, while the horse and buggy got off without any injuries to speak of.

The driver of the horse attaches no blame to the autoists.

AN OFF DAY

Today is an off day for the Newark and Mansfield teams and the Molders spent the day in Newark resting up and preparing for the next road trip.

LOSING POPULATION.

Emigration From the United States In Excess of Immigration.
Figures issued by the United States government show that in the year ending June 30, 1908, only 687,000 alien immigrants entered the United States as compared with 1,300,000 during the preceding year. That this decline of nearly 50 per cent in immigration has taken place since the panic of last October is shown by figures given out by the steamship companies, stating that only 186,586 aliens have arrived in the six months following Jan. 1, 1908, as compared with 739,748 during the same six months of last year.

At the same time the emigration from the United States back to European countries has increased amazingly. The steamship companies are said to have records of the sailing of 377,644 aliens returning to foreign homes in the first six months of 1908 as compared with 155,792 who went in the first half of 1907. It will thus be seen that many more working people are going back to Europe than are coming to the United States.

These facts at once emphasize the very serious character of the industrial depression existing during the past nine months and show that but for this unexpected and unaccounted movement of people out of the country the suffering from hard times and a congested labor market would have been much greater. This emigration barometer seems to indicate in the minds of foreign born Americans a suspicion that the tariff will not be able to give the United States any advantage over Europe in the relation of wages to the cost of living.

TREASURY DEPARTMENT.
Office of Comptroller of the Currency.
Washington, D. C., July 6, 1908.

Whereas, By satisfactory evidence presented to the undersigned, it has been made to appear that "The Park National Bank of Newark," in the city of Newark, in the county of Licking, and State of Ohio, has complied with all the provisions of the statutes of the United States, required to be complied with before an association shall be authorized to commence the business of banking;

Now, Therefore, I, Thomas P. Kane, deputy and acting comptroller of the currency, do hereby certify that "The Park National Bank of Newark," in the city of Newark, in the county of Licking, and State of Ohio, is authorized to commence the business of banking as provided in Section Fifty one hundred and sixty-nine of the Revised Statutes of the United States.

Conversion of the Guardian Savings and Trust Company. In testimony whereof, witness my hand and seal of office this sixth day of July, 1908.

A NEWARK MAN ASKS JUDGE FOR A FUNNY PAPER

Robert W. Irwin, Aged 70, Secures a License to Marry Mrs. Martha Burkholder.

Zanesville, O., Aug. 27.—Mr. Robert W. Irwin, aged 70 years, of Newark, presented himself to the deputy probate judge yesterday and asked for a "funny paper." Mr. Irwin locked the door of his room in Newark, Ohio, and decided to issue a marriage permit, which he did, and in a very few minutes Mr. Irwin was united in marriage to Mrs. Martha Ellen Burkholder of this city. The wedding ceremony took place in the probate court room with the Rev. Rolla Earl Brown, pastor of the Market street Baptist Church officiating, and the joyful bridegroom with his bride, left for Newark, where they will reside.

RED PAINT NEED NOT BE USED ON CANS

Oil and Gasoline Cans Must be Properly Labeled After Tuesday, September 1.

The law recently passed by the state legislature, providing for a state oil inspector and the regulation of the sale of gasoline, benzine and naphtha by dealers and the keeping on hand of the same by consumers, is being widely discussed throughout the state at the present time.

In some manner the impression has gone abroad and is held generally not only by individuals, but many newspapers as well, that the law provides that all oil and gasoline jugs, cans and other receptacles must be painted red. This is a mistake, however, as a perusal of the law shows that the vessels need only be labeled in plain letters, showing their contents, and after being properly marked, a can cannot be used to hold a liquid other than called for by the label.

The law provides for deputy oil inspectors in the different counties, whose duty it will be to see that the provisions of the law are carried out and to arrest all violators. All police officers are also given the same powers. Non-compliance with the law places one liable to a fine of from \$5 to \$50 or a maximum sentence of 90 days in the county jail or both. The law goes into effect next Tuesday, September 1.

HIS HORSE WAS STOLEN.

Looking the stable after the horse is stolen is about as sane an act as trying to grow hair after the head is bald.

If the hair root is absolutely dead, permanent baldness will be your lot, and you might as well cheer up and tell your friends that it isn't so bad after all, as to bemoan your fate.

But if your hair is just beginning to thin out, if the thought occurs to you that in a year or two you can take your seat in the bald-headed row without being asked for credentials, then you've got a chance, and a great big chance.

If your hair is falling out or thinning out, don't wait another day; go to Evans' drugstore, and get a bottle of Parisian Sage, the most efficient hair grower the world has ever known.

Don't say: "It's the same old story; I've heard it before," but try a bottle of P. J. Evans' Sage.

He guarantees Parisian Sage to grow hair, to stop falling hair, to cure dandruff, and stop scalp itch in two weeks, or money back.

Parisian Sage is the most invigorating hair dressing made. It is antiseptic; it kills all odors that are bound to arise from exertions of the scalp during the hot months, and everyone knows that sage is very cooling to the scalp.

Parisian Sage is a prime favorite with discriminating ladies, because it makes the hair lustrous and luxuriant. Get a large bottle from Evans' drugstore, Warden Hotel block, for only 50 cents, or by express, all charges prepaid, from the American makers, Giroux Mfg. Co., Buffalo, N. Y.

COURT NEWS

Answer and Cross Petition.

In the case of the C. N. & Z. and Ohio Electric Railway companies vs. John Nelson et al. the defendant has filed an answer denying the allegation of the defendants. His cross petition asserts that the plaintiffs have no right to the land in question and that the defendant holds a deed from the state for the same. He asks a dissolution of the injunction. The case is one which grew out of the trouble between the traction people and the State, which began when the traction people moved in the night, July 19, which was moved by the traction employees. The defendant asks that the plaintiff be enjoined from in any way interfering in the possession of the land. Flory & Flory.

Bucklen's Arnica Salve Wins.

Tom More, of Rural Route 1, Cochran, Ga., writes: "I had a bad sore come on the instep of my foot and could find nothing that would heal it until I applied Bucklen's Arnica Salve. Less than half of a 25 cent box won the day for me by affording a perfect cure." Sold under guarantee at F. D. Hall's drug store.
